RECYCLING GUIDE

WHAT CAN I DO NOW?

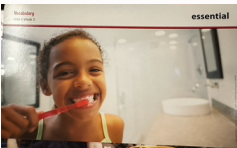

- Work with custodial team to get a recycling roll cart moved where the haulers pickup outside the school. This is to make sure that they are not too heavy to move out to curb for pick-up.
- Once a bin is ready, 2-3 classes per week can fill the bin 3/4 up with SOFT cover books and manipulatives.
- Anything with a spiral bound can be added, please remove the spiral.
- Anything listed below can be kept if you choose or given to students.

RECYCLING GUIDE

HOW DO I RECYCLE THE HARDBOUND BOOKS?

- **All HARD BOUND READERS, will be shipped to the Paper People in Vancouver to be unbound and recycled.**
- **A large box and a pallet, will be sent to your school. This will be for the HARD BACK BOOKS ONLY!**
- **It is anticipated that 6 classrooms worth of books can be added to each box. They do not need to be stacked inside but the neater the books go in, the more we can fit.**
- **Each box should be able to hold about 600 books.**

WHAT DO I KEEP?

- We are working on a correlation doc that will utilize Leveled Readers to support building background knowledge with the new EL curriculum. They will not be used for guided reading groups but will support EL text sets.

- You can also keep your Lucy Caulkins mentor texts to add to your class library.
